

PROGRAM PARTNER OVERVIEW

Getting Started

A simple, organized onboarding process helps your meal program launch with confidence.

- Consultation: We discuss your population, service goals, meal volume, schedule, and delivery needs.
- Program design: We recommend a practical service plan, including menus, dietary considerations, and delivery logistics.
- Coordination: We align contacts, routes, delivery windows, documentation, and communication procedures.
- Launch: Service may begin in as little as 48 hours when details are ready; larger programs may require additional setup time.

Ideal for senior programs, day centers, community organizations, healthcare partners, housing providers, and care teams.

Serving healthy meals to people in need since 2004.

NUTRITION SOLUTIONS

Healthy meals. Delivered with dignity.

Program Partner Overview

Reliable meal preparation and delivery for organizations serving Alameda County communities.

Nutritious meals. Flexible programs. Respectful service.

Designed for community partners who need more than food delivery - they need a dependable nutrition solution.

WHO WE SERVE

Flexible Meal Programs for Diverse Communities

Nutrition Solutions supports individuals and organizations with reliable access to balanced, appealing meals.

- Older adults and senior nutrition programs
- Children, families, and adults needing meal support
- Day centers and community-based programs
- Residential communities and group dining settings
- Healthcare-adjacent organizations and care coordinators
- Individuals receiving meals at home

Every program is built around the people being served, not a one-size-fits-all menu.

WHAT WE PROVIDE

More Than Meal Delivery

- Meal preparation and dependable delivery
- Custom menu planning for groups and individuals
- Nutrition assessments and counseling support
- Vegetarian, culturally responsive, and medically appropriate options when available
- Program coordination for agencies and care teams
- Scalable solutions for small programs or larger community operations
